

ENVIRONMENTAL POLICY STATEMENT

The management and directors of ISL Waste Management recognise the importance of environmental protection and are committed to establish and maintain a management system to ensure that we achieve each of the following environmental objectives:

- Compliance with applicable regulations and the requirements of ISO 14001:2015
- Protect the environment for future generations
- Continual improvement of our environmental management systems
- Communicate and train our staff to ensure that this policy is understood and upheld throughout the organisation.
- Our Environmental Policy is available to interested parties outside our organisation via our website at www.islwastemanagement.co.uk
- Prevent pollution of the environment arising from any of our activities or processes.
- Avoid waste of natural resources.
- Review our policies and systems to ensure they continue to be valid and effective.
- We will use our documented management system and the requirements of legislation, codes and standards as the framework for ensuring that we continue to set and achieve our environmental targets and objectives.

A handwritten signature in black ink, appearing to read 'Barry Dwyer'.
